

Bonnie Wade-Mucia

Bonnie Wade Mucia works in acrylic, impasto, and watercolor paints. Her love of art in childhood when she took advanced art classes then attended Rhode Island School of Design for a brief period after graduation.

“I love lots of color and texture in my work. Impasto paintings give the work a 3D look which makes the objects look as if they are coming out of the canvas. The creative process is almost meditative, and happiness and joy are displayed in my paintings.”
